AI & ML Undergraduate — Full-Stack Developer — Open Source Contributor

Professional Summary

Motivated Computer Science (AI & ML) undergraduate with experience in full-stack development, machine learning, and open-source contributions. Skilled in Java, C++, Python, JavaScript, React, Express.js, MongoDB, MySQL, Git, and AWS. Passionate about building scalable applications and solving real-world problems.

Projects & Experience

CarPooling – Eco-Friendly Ride Sharing Platform

Role: Full-Stack Developer

Tech Stack: React, Express.js, PostgreSQL/MySQL, PayPal API

- Built a ride-sharing platform with secure payments and GPS integration.
- Improved scalability and user trust through optimized architecture.
- Used Git and Figma during development.

Vibexpert Shop – Modern E-Commerce Platform

Role: Front-End Developer

Tech Stack: React.js, JavaScript, HTML5, CSS3, React Router, REST APIs

- Designed and developed a responsive e-commerce platform using React.js with a modern and intuitive user interface.
- Built product browsing, category filtering, search functionality, and dynamic product detail pages to improve the shopping experience.
- Integrated REST APIs to display real-time product information using reusable React components.
- Optimized application performance, responsive layouts, and navigation for seamless access across desktop and mobile devices.
- **Live Website:** www.vibexpert.shop

Chatbot Development Intern – FOSSEE, IIT Bombay

Role: eSim Chatbot Developer

Tech Stack: Python, Large Language Models (LLMs), Ollama, Qwen, LLaVA, Git, GitHub

- Contributed to the development of an AI-powered chatbot for the eSim project at FOSSEE, IIT Bombay.
- Developed and enhanced chatbot features to assist users with eSim-related queries using Large Language Models.
- Integrated Qwen and LLaVA models to provide intelligent, context-aware, and multimodal responses.
- Collaborated with the development team using Git and GitHub while following open-source development practices.
- Improved chatbot performance, usability, and response quality to deliver a better user experience.

Open Source Experience – GSSoC Extended

- Contributed to open-source repositories by fixing bugs and submitting pull requests.
- Collaborated with maintainers using Git and GitHub.

Education

VIT Bhopal University

B.Tech in Computer Science (AI & ML)
2023–2027

CGPA: 8.33

Shanti Dham School

Senior Secondary School (2022)

78.2%

Technical Skills

Programming: Java, C++, Python, JavaScript

Frontend: HTML, CSS, React

Backend: Express.js, Node.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, AWS, MATLAB, Postman API

Core: Machine Learning, GenAI, OOP

Key Highlights

- Solved 450+ LeetCode problems.
- Solved 350+ GeeksforGeeks problems with a 200-day streak.
- Top 3% in Ninja SlayGround 2.0.
- Completed Postman API Fundamentals Student Expert.
- Completed 100 Days of Coding Challenge.
